

Letter of Recommendation

To whom it may concern,

I am pleased to recommend **Silvina Batista**, an Argentine conceptual photographer whose work demonstrates a refined artistic vision and a strong personal language.

As a visual artist with a long career in the arts and as the host of a radio program dedicated to contemporary art, I had the opportunity to interview Silvina and become familiar with her work. Her photography stands out for its conceptual depth, sensitivity, and a distinctive minimalist aesthetic that reflects a mature artistic voice.

Silvina Batista's work reveals a thoughtful exploration of identity, presence, and visual symbolism. Her artistic commitment and the consistency of her practice position her as a photographer with significant potential within the international contemporary art scene.

I strongly recommend her work to galleries, curators, and international art platforms.

Sincerely,

Stella Sidi

Visual Artist & Radio Host
